Dear Mayor and Councillors,

On behalf of the League and approximately 4,000 ToL resident players, we are asking the Township to help us relocate the Michael J Smith diamond and backstop.

The movement of this diamond would create a one half wagon wheel design currently used north of the oval at the four diamond McLeod Athletic Park complex.

These diamonds are used extensively from end of March thru beginning of October.

We are looking to move the one diamond, perhaps reconfiguring the Ron Ralph diamond, away from the Langley Education Centre and the long jump pit south of the Grandstand. There have been issues with balls landing in both areas leading to safety concerns and possible damage to property.

Langley Education Centre was located on Fraser Highway when the MJS field was last updated

It is our understanding the Senior Baseball Diamond was upgraded with an artificial turf to the infield. The Group anted up +/- \$75K for a +/- \$350K project, a 3.5 bump [$\$350 - \$75 = \$275K / \$75K$].

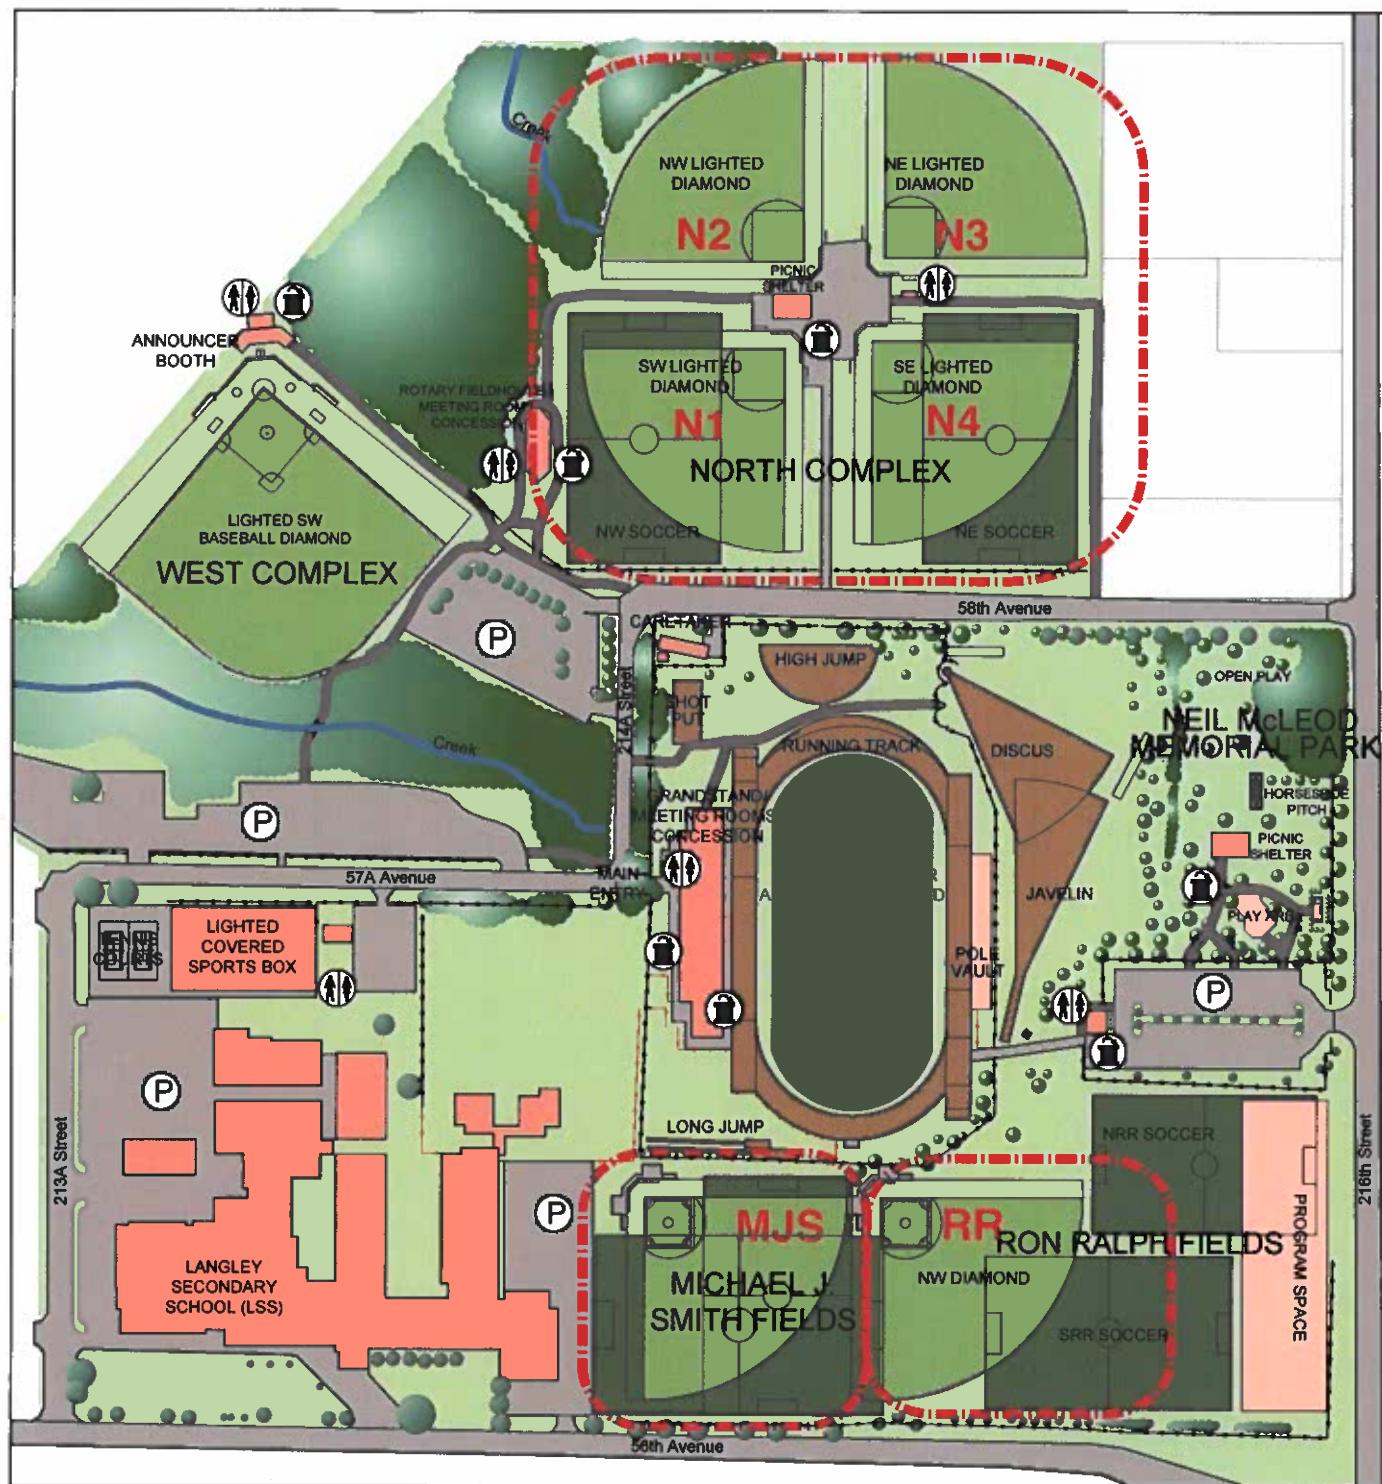

We are asking for a similar partnership, in which we would contribute +/- \$75K for the project whose costs would be in the +/- \$300K range. A recently tendered proposal for the MJS diamond relocation came in around the \$145K range. This equates to a 3.0 bump, $\$300K - \$75K = \$225K / \$75K$.

We have made presentation to LOSAG [Langley Outdoors Sports Advisory Group] and they support the Proposal.

Given these diamonds are the most used within the Township, we hope you seriously consider our request and would partner with us in making this a reality

Sincerely yours,

Peter Zeller
