**CARRIED**

Barb Sharp welcomed the Task Force Members, Township of Langley Staff, Mayor and Council and all those in attendance.

#### **B. ITEMS FOR DISCUSSION**

##### **1. Discussion Led by Gordon McIntosh**

The nature of the Task Force was explained by Gordon McIntosh. Participation by all members is key to the success of the project. The Power Point presentation outlined the steps which, once completed, will provide insight as to the important issues that can be brought forward to

Mayor and Council. The issues, challenges, opportunities need to be assessed and then strategies can be developed.

Self-introductions of the Task Force Members were made – many Members have been long-time residents of the Township of Langley, and all share a commitment to their community through volunteerism, choosing to operate their business locally, participating in local events, and all eager to build a better community.

Four groups were formed and each group provided information relating to the Township of Langley, on Environment, Economy, Infrastructure and Social.

Barb Sharp thanked Gordon McIntosh and all those present for their valuable contributions and enthusiasm. She was impressed with the variety of issues, suggestions and concerns that were brought forward.
