Korean Mask Donation

Whereas the Gapyeong County of South Korea donated 10,000 Comet Disposable Masks to the Township of Langley;

Whereas the COVID-19 pandemic continues to affect our community, residents and staff; and

Whereas our local Fire Department and Langley Emergency Program uses masks routinely in order to conduct their daily work tasks such as fire inspection, public education, and emergency preparedness responses;

Therefore be it resolved that Council donate the 10,000 Comet Disposable Masks to the Township Fire Department and Langley Emergency Program for use in their day-to-day operations.
